## PROFILE

Web Application Development professional with experience in implementing and maintaining digital solutions. Recognized for teamwork, communication, and problem-solving skills, turning ideas into tangible results. Highly motivated to keep learning (currently focusing on DevOps and Machine Learning with Python) and to contribute my energy to a team where I can transform ideas into useful, high-quality solutions.

## PROFESSIONAL EXPERIENCE

### WEB DEVELOPER

Grupo Talía | March 2025 - June 2025

- Optimized and maintained the corporate website using Node.js, Express, and MongoDB, improving stability and performance.
- Implemented new features and resolved incidents, ensuring reliable and efficient site operation.
- Collaborated in a team applying best development practices and version control with Git.

### SALES ADVISOR

Leroy Merlin | January 2024 - March 2025

- Used Power BI for data analysis and decision-making support.
- Project planning and team coordination with the help of digital tools.

### SALES ASSISTANT

Cañizares Piñero, S.A. | June 2022 - July 2023

- Managed inventory and stock control with SAP ERP, including data registration, analysis, and updates in enterprise digital systems.
- Optimized internal processes and improved operational efficiency through digital tools and workflow organization.
